PROJECTS

Ringtone Downloader

Data period Location

This is a simple Ringtone Downloader that I made using Apple's Music API. The user enters the name of a song they want to download the ringtone for. After that, they press the download button the song will be downloaded on local storage, 30 sec mp3 file.

SumanMusic

Data period Location

This is a free online music player that uses both the YouTube and Spotify APIs, offering the largest library of songs available.
